Water-to-Wine Slider Jar

Miracles of Jesus · Week 1 · Jesus Turns Water into Wine · John 2:1-11

Children make a stone water jar with a slider window. Push the strip down and the jar is full of water. Pull it up and the water has become wine - just like Jesus did at the wedding in Cana.

Before the Session

- Print one template page per child on card (200 gsm works well). Use the colour page, or the black-and-white page if you'd like the children to colour their jar.
- For younger children: cut out the jars, window and strip ahead of time, so they can go straight to gluing and sliding.
- Cutting the window is the trickiest part. A leader can pre-cut it with a craft knife, or fold the jar gently across the window and snip a starting cut.

Materials

- Printed template (one per child)
- Scissors (or pre-cut pieces for younger children)
- Glue stick
- Crayons or markers (only for the black-and-white version)

Steps

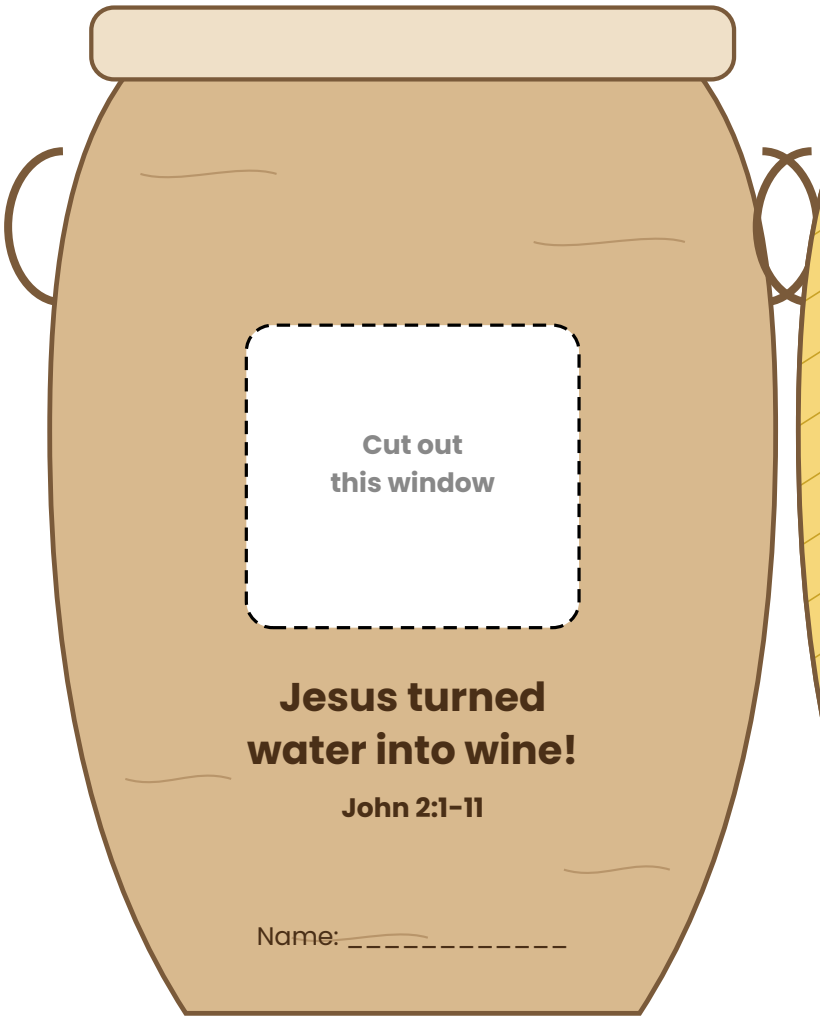
1. Colour your jar, water and wine if you're using the black-and-white page.
2. Cut out the FRONT jar, then cut out the window in the middle of it.
3. Cut out the BACK jar and the slider strip.
4. Put glue on the two striped sides of the BACK jar only. Keep the middle and the top free of glue.
5. Press the FRONT jar on top so the edges line up. Leave it a minute to stick.
6. Hold the strip with PULL UP at the top. Slide it into the jar mouth, water end first, until WATER shows in the window.
7. Now pull the tab up - the water has become THE BEST WINE!

Talk about it while you slide

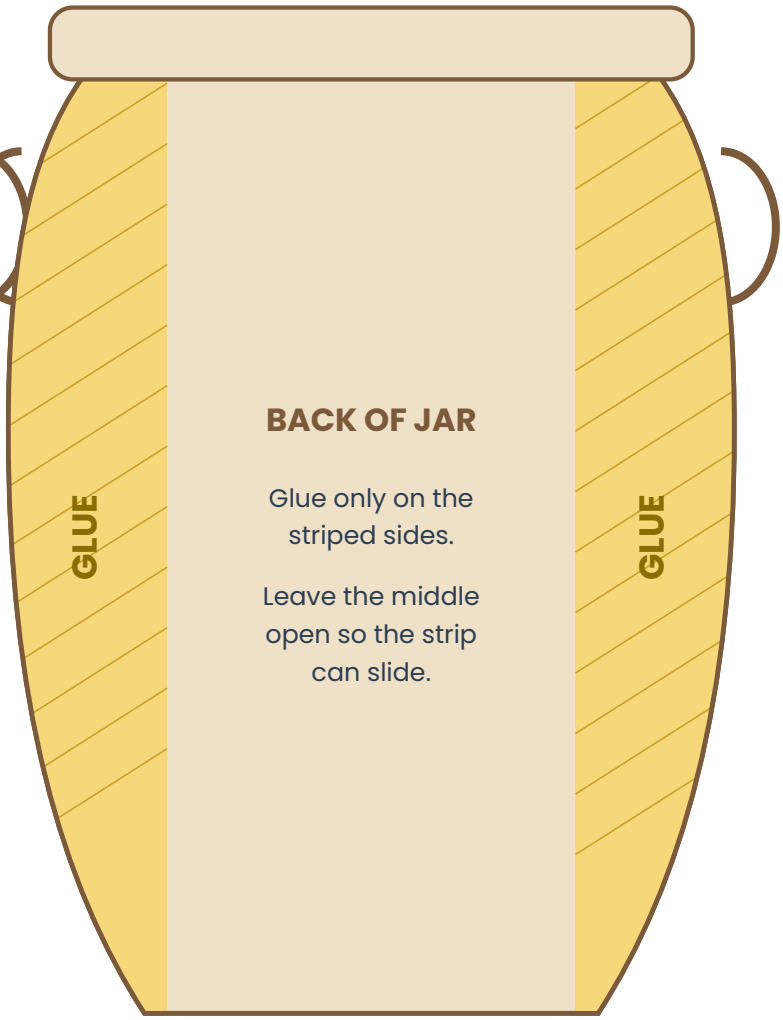
Ask: "Could you or I turn water into wine?" (No!) "Who could?" (Only Jesus!) This was Jesus' first miracle. It showed His glory - that He is God's Son - and His friends believed in Him. Each time you pull the tab, say together: "Jesus can do what no one else can!"

Water-to-Wine Slider Jar

Print on card. Cut on the dashed lines. One set per child.



1. FRONT – cut out the jar and the window



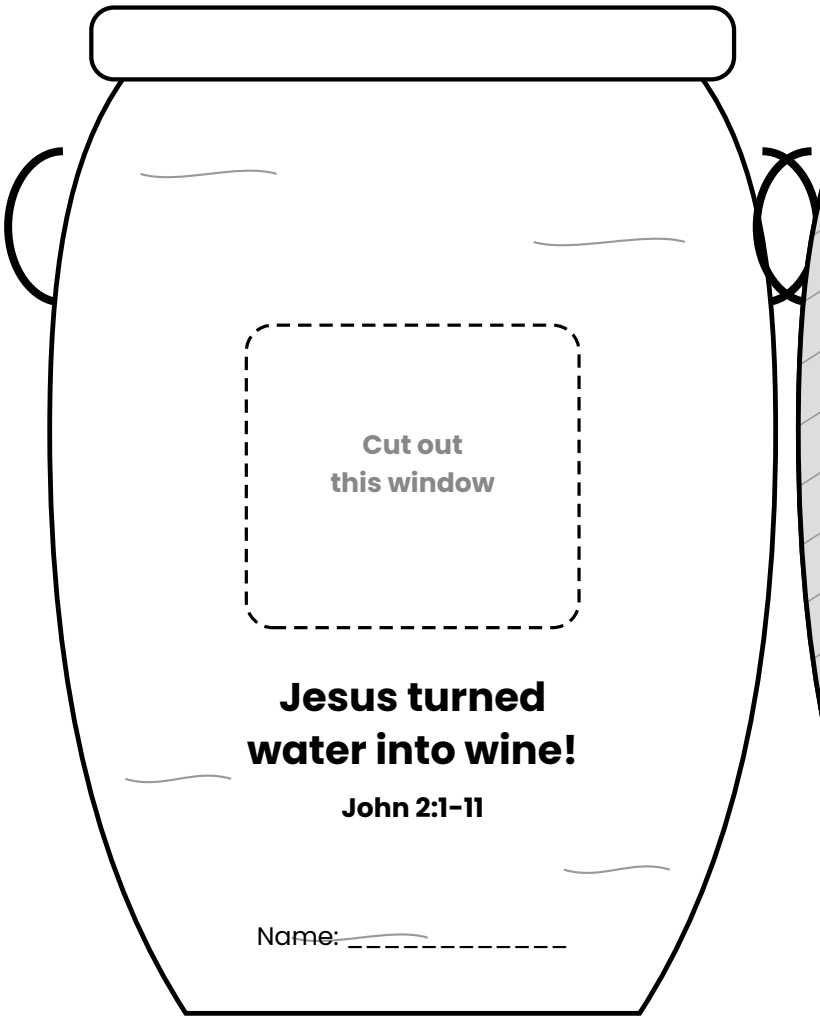
2. BACK – cut out the jar

3. SLIDER STRIP – cut out along the dashed line

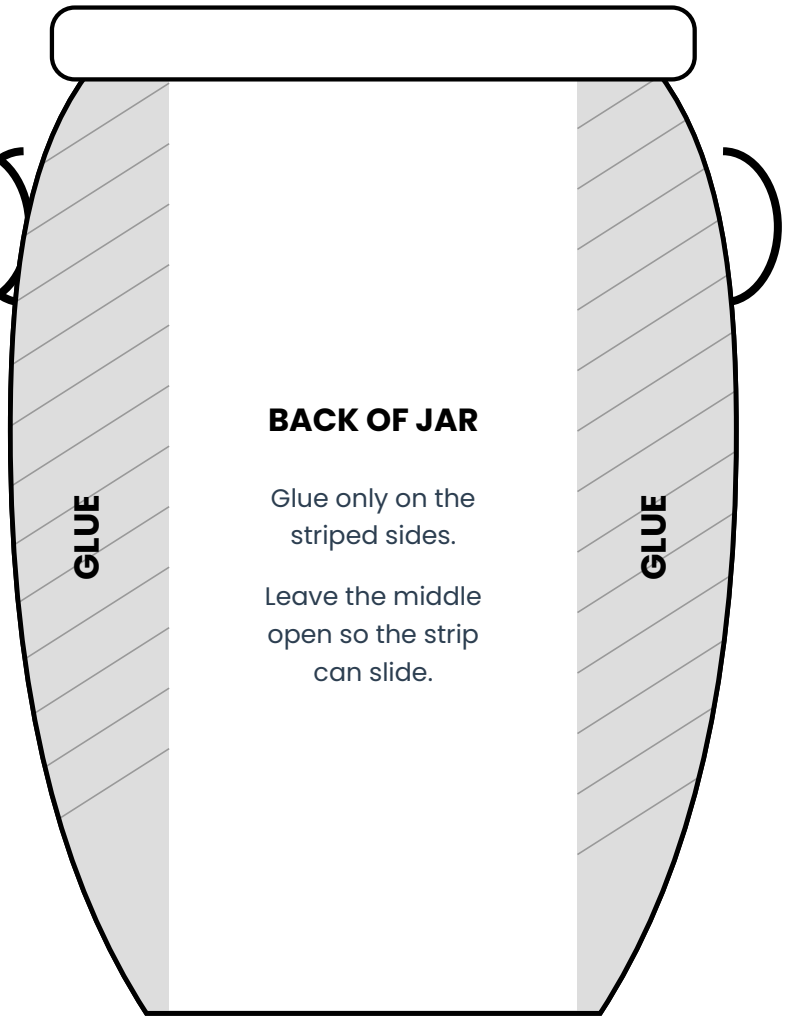
Hold the strip with PULL UP at the top. Slide it into the jar from the top, water end first. Push it down to see the water. Pull it up and Jesus has turned the water into wine!

Water-to-Wine Slider Jar – Colour Me In

Print on card. Cut on the dashed lines. One set per child.

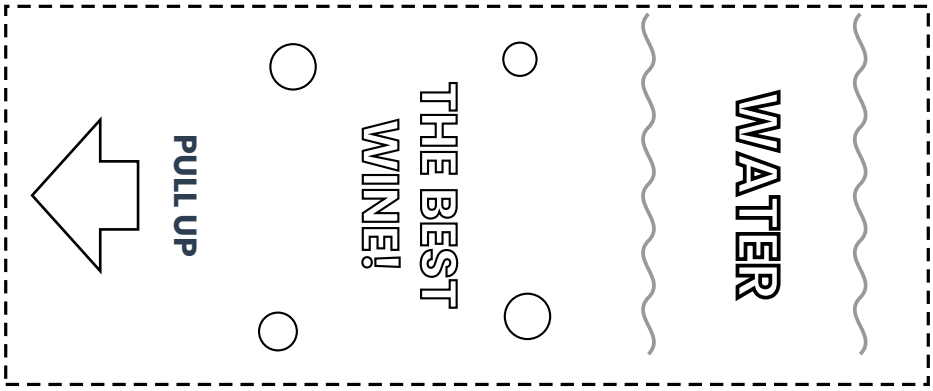


1. FRONT – cut out the jar and the window



2. BACK – cut out the jar

3. SLIDER STRIP – cut out along the dashed line



Hold the strip with PULL UP at the top. Slide it into the jar from the top, water end first. Push it down to see the water. Pull it up and Jesus has turned the water into wine!

Colour the jar brown, the water blue and the wine purple.
