

GOOD SAMARITAN CRAFT

What You Need

- Scissors
- Glue stick or PVA glue
- Coloured markers / crayons (if using black & white option)
- Real adhesive bandages
- Printed templates

Step 1 — Choose Your Man

This craft includes two options:

Black & White Version

Colour the injured man using markers or crayons.

Pre-Coloured Version

Cut and use straight away — no colouring needed!

Step 2 — Cut Out

Carefully cut out:

- The injured man
- The full first aid kit shape

Cut neatly around the curved flap.

Step 3 — Build the First Aid Kit

1. Fold along the envelope flap line.
2. Fold side tabs inward.
3. Glue or tape the sides to form a pocket.
4. Press flat and allow to dry.

Your first aid kit should now open and close!

Place real bandages inside the pocket.

Step 4 — Help the Man

Take the bandages from the first aid kit.

Stick the bandages onto the injured man to help him — just like the Good Samaritan did.

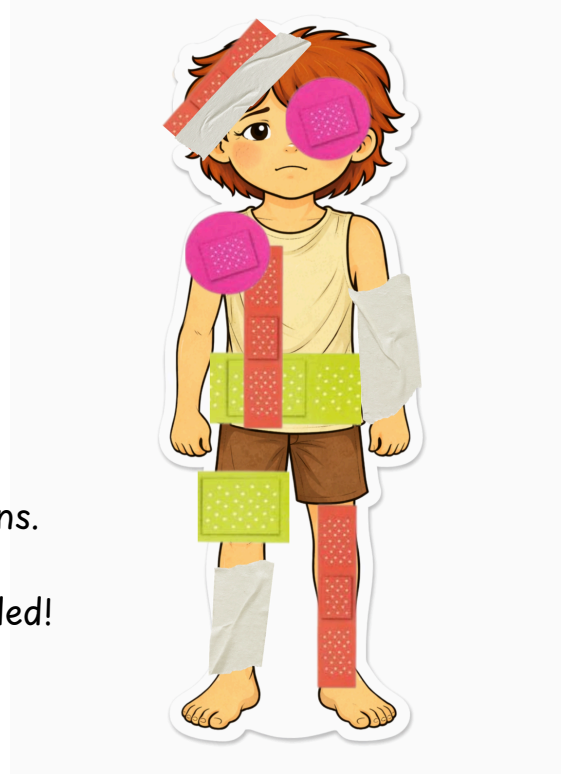

Step 5 — Be a Good Samaritan This Week

Any leftover bandages can be taken home.

Children can:

- Use them in pretend play
- Help a sibling
- Comfort a friend
- Show kindness at home

Encourage them to look for ways to “be a Good Samaritan” during the week.

Love your neighbour
as you love
yourself
Luke 10:27

I CAN BE A GOOD SAMARITAN
